PROFESSIONAL SUMMARY

Results-driven and motivated entry-level IT professional with a strong foundation in web development, networking, AI, and technical support. Experienced in building web applications using PHP, HTML, CSS, JavaScript, and the VILT stack, with hands-on internship experience at D.B.I. Demonstrates working knowledge of networking principles and AI development using Python (Pandas) in Google Colab. Eager to contribute to organizational success, continuously learn from industry professionals, and deliver high-quality solutions in dynamic environments.

WORK EXPERIENCE

Full-stack Developer | Internship

D.B. International Sales & Services Inc. | San Juan City, Philippines | March 2025 - July 2025

- Successfully designed and developed a Project Management System for DBI under the guidance of my mentor/supervisor. The system supports project tracking, task management, and role-based access to ensure security and efficiency. This project enhanced my experience in full-stack web development, system architecture, and real-world application development.
- The tools/framework that has used for the project management system is **VILT Stack** (Vite, Inertia.js, Laravel, Tailwind CSS).

EDUCATION

Bachelor of Science in Information Technology

Jose Rizal University, Mandaluyong City, Philippines

Graduated: June 2025

SKILLS

- Programming Language/s**
Php | Java | JavaScript | Python | VB.NET | MySQL | Oracle SQL
- Natural Language Processing & Machine Learning**
HuggingFace | Tansformers | NLTK | spaCy | NumPy | Pandas | Matplotlib
- Web Development**
Php | TailwindCSS | JavaScript | MySQL
- Framework**
VILT Stack (Vue Js, Inertia Js, Laravel, TailwindCSS)
- Tools**
Figma | Visual Studio Code | Google Colab | Photoshop | Github | Git

CERTIFICATIONS

- IDOL HACKATHON**
Meralco | Certificate of Participation **2024**
- On-the-Job Training (486 HOURS)**
D.B. International Sales & Services, Inc. | Certificate of Intership **2025**

PROJECTS

Dedicated Project Management System | VILT Stack (Vue.js, Inertia.js, Laravel, Tailwind CSS) **Mar 2025 – Jun 2025**

- Developed a secure and responsive internal project management system that streamlined task assignment, scheduling, and progress tracking, improving workflow efficiency and collaboration.

PASIGNAE Web Portal | PHP, MySQL, HTML, JavaScript, Tailwind CSS **Feb 2025**

- Built a reliable church management web portal with backend record handling and scheduling features, enhancing administrative efficiency and system accessibility.

Sentiment Analysis & Topic Modeling System | Python, BERT, Hugging Face, Pandas, Matplotlib **Dec 2024**

- Performed sentiment analysis and topic modeling on student exit interview data to generate actionable insights that supported decision-making and improved student experience.

ENERGIZE – Meralco Hackathon 2024 | HTML, CSS, JavaScript, Python, scikit-learn, BERT **Nov 2024**

- Led the development of an automated audit reporting system that reduced manual errors and improved efficiency through data analysis and intelligent processing.

Chatbot Development Using LangChain | LangChain, Hugging Face, GPT-2, GPT-Neo, T5-small **Nov 2024**

- Developed and evaluated multiple LLM-based chatbot models to determine optimal performance across varying query complexities, improving response accuracy and system effectiveness.
